Cord Reels GC Series

INDUSTRIAL DUTY CORD REELS

Open Spool Cord reels with fluorescent or incandescent lamp, single or dual outlet. Also available with bare cord end. All reels include automatic spring rewind, a multi-position four roller cord guide & a 48" pigtail with three prong plug. Ideal for a wide variety of industrial applications mounted from wall, ceiling or under work bench. These reels are available with your choice of single or dual outlet, incandescent hand lamp, fluorescent hand lamp or with bare cord. Cord lengths from 25' to 70'.

All reels include adjustable cord stop, spring rewind and ratchet lock. Operator simply pulls cord off spool. Ratchet lock maintains desired cable length and, when task is completed, a slight pull releases the ratchet allowing the spring motor to rewind the cord. Reels feature heavy steel frame with baked-on polyester finish. Fully gasketed steel Slip-ring housing.

Both hand lamps include on-off switch. Fluorescent lamp features directed light, polycarbonate outer tube and integral ballast. Twenty amp duplex box includes ground fault circuit interrupter (GFCI). **Consult factory if installation height is greater than 16'.**
