

Your CONDUIT to Performance.™

Aircraft Ground Power Cable Dust Caps

Protect your valuable aircraft ground power service cable connectors!

P508A

P28CY

- *Don't let your connectors become like this one!*
- *Safeguard personnel with the use of the Protective Dust Caps.*

The **P508A**, for 400Hz Connectors, and **P28CY**, for 28VDC Connectors, are designed to fit snugly over the connector and are made out of rugged highly abrasion-resistant material, and are suitable for the most arduous temperature conditions.

The use of the **P508A** and **P28CY** Dust Caps helps to prevent:

- **Water and fluid migration** into the connector
- **Electrical shock** from live cables on the ramp
- **Excessive connector wear** from dragging on the tarmac
- **Dirt and dust intrusion** into the connector
- Premature **connector replacement** due to ramp abrasion
